too young  
for...  
**ORTHODONTICS?**

Johnny, aged 8, may be too young for orthodontic treatment, but he is certainly old enough to benefit from the use of Space Maintainers. Today, preventative orthodontic service is recognized as essential. This service will also aid in developing the confidence and security in all of your future Dental Services to Johnny and his family. Our Laboratory has a special Space Maintainer Department, trained in the handling of Aderer Precious Metal Orthodontic Material, and it is available to you at surprisingly moderate cost. We would appreciate the opportunity of discussing this efficient service with you.

*Contributions:* Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever. Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of materials will insure more consideration for publication.

Published semi-monthly by the Chicago Dental Society. Publishing, Editorial and advertising office: 30 North Michigan Avenue, Chicago 2, RAndolph 6-4076. Annual subscription \$2.50, single copies 15 cents; circulation 6,300 copies.

Second class mail privileges authorized at Chicago, Illinois.
